

450Plus

Lithium Empowered Cleaning Solution

Designed and manufactured exclusively
by Chem-Coat Industries, Inc.

Complete Care 450Plus DAILY CLEANER FOR CONCRETE

Complete Clean 450PLUS revolutionary designed formula uses the power of Chem-Coat's Lithium to clean and harden concrete at the same time. Daily use of Complete Clean 450PLUS with a regular maintained program can extend the life of the floor, assuring years of protection.

COMPLETE CLEAN 450PLUS DAILY CLEANER is an effective general purpose cleaner for removing light to moderate soiled Floors in facilities such as schools, institutional facilities, office buildings, restaurants, etc. COMPLETE CLEAN 450PLUS DAILY CLEANER is easy to use and provides economical care for both small and large facilities. The Lithium Power of 450Plus will help clean and harden the concrete surface to assure a better gloss and a longer life of the concrete.

Directions: For daily cleaning light soiled floors use a solution of 4 to 8 oz. per gallon of water. For medium to heavy soiled areas use a solution of 8 to 16 oz. per gallon of water. Apply with a damp mop using only the amount of required cleaning solution. Using cleaner than you need, could leave a residue on the floor. Let solution work for a few moments while you dampen the next area. The extra time gives the cleaning solution time to dissolve the soil and the lithium to react with the concrete. Then, dip the mop again and wring it out thoroughly. Go back over the area to pick up the water and dirt. Complete Clean 450PLUS may be diluted in similar fashion and used in a trigger sprayer with a damp cloth or sponge for cleaning small surfaces. Chem-Coat Industries, also offers Stampede Degreaser. Stampede is intended for use in industrial, commercial and institutional cleaning on tough grease and oil stains.

Before cleaning, place warning signs in regards to wet floor around work area. Always place warning signs when cleaning the floors. Do not remove the signs until the floor is completely dry and safe to walk on.

Do a small test area before project starts to assure compatibility of all products, an approval.

KEEP OUT OF REACH OF CHILDREN AND PETS

Do not mix or use with any cleaners or household products. Always do a spot check before using on any surface.

Availability

1-Gallon Units, 5-Gallon Units, 55-Gallon Units
