

# **STAMPEDE 550**

## **HEAVY DUTY CLEANER DEGREASER**

STAMPEDE 550 HEAVY DUTY CLEANER DEGREASER is a powerful, fast-acting cleaner and degreaser. Stampede cuts through grease and oil quickly. It is intended for use in industrial, commercial and institutional cleaning. In food processing plants, always rinse with potable water after use. Always place wet floor signs when working with any liquid on the floor. Do a small test area to assure compatibility of all products.

**Directions:** For daily cleaning light soiled floors use a solution of 4 to 8 oz. per gallon of water. For medium to heavy soiled areas use a solution of 8 to 16 oz. per gallon of water. Apply with a damp mop using only the amount of required cleaning solution. Using more cleaner than you need, could leave a residue on the floor. Let solution work for a few moments while you dampen the next area. The extra time gives the cleaning solution time to dissolve the soil. Then, dip the mop again and wring it out thoroughly. Go back over the area to pick up the water and dirt. Stampede may be diluted in similar fashion and used in a trigger sprayer with a damp cloth or sponge for cleaning small surfaces.

**Important:** Before cleaning, place warning signs in regards to wet floor around work area. Always place warning signs when cleaning the floors. Do not remove the signs until the floor is completely dry and safe to walk on. Do a small test area before project starts to assure compatibility of all products, an approval.

KEEP OUT OF REACH OF CHILDREN AND PETS

Do not mix or use with any cleaners or household products. Always do a spot check before using on any surface.

### **WARRANTY**

Chem-Coat Industries (CCI) warrants that at the time and place we make shipment, our material will be of good quality and will conform without published specifications in force on the date of acceptance of the order. **DISCLAIMER:** The information contained herein is included for illustrative purposes only and, to the best of our knowledge, is accurate and reliable. CCI cannot, however, under any circumstances make any guarantee of results or assume any obligation or liability in connection with the use of this information. As CCI has no control over the use to which others may put its products, it is recommended that the products be tested to determine if suitable for specific application and /or our information is valid in a particular circumstance. Responsibility remains with the architect or engineer, contractor and owner for the design, application and proper installation of each product. Specifier and user shall determine suitable products for specific application and assume all responsibilities in connection therewith.

Read all instructions, warnings and limited liability on all product labels and technical sheets before using Chem-Coat Products. Do a small test in an inconspicuous area before project starts to assure compatibility of all products, an approval.
